Re: Racing Committee Directive – Full Fields – Amended Directive

At the Racing Committee meeting held on 17 June 2016 the Directive was varied to allow all sprint races to have a minimum of 9 dogs to constitute a field (previously 10 dogs).

Amended Directive:

“that in distance races (600m and above) and middle distance races (400m to 599m) a minimum of 8 dogs is required to constitute a field (this includes group and feature races).

At all other distances, 9 dogs are required to constitute a field (unless insufficient nominations for the meeting are received after nominations are extended, then 8 dogs is a minimum). This supersedes all Club Selection Criteria and Field Directives”.

A handwritten signature in black ink, appearing to read "Robert", is positioned above the title "Racing Manager".
