

SCRATCHING DUE to a MATERIAL CHANGE in TRACK CONDITIONS. As at 13 July 2020

A material change to the condition of the track, occurring after the start time of the meeting (7.30am) shall now be deemed to constitute a valid reason for a trainer to scratch a Greyhound.

The type of track the Greyhound has been scratch from will then be recorded against the Greyhounds name and will be used for reference should it be engaged to compete on the same rated track in future.

Should the Greyhound be drawn to compete on a track that is rated the same that it has been previously scratched from, the trainer will be afforded the opportunity to scratch again or tender an explanation as to the reason the Greyhound should be given permission to start.
